Definition of Professional Cameras

The Abbotsford Entertainment & Sports Centre defines a professional camera as "a camera, digital or otherwise, with a detachable/interchangeable lens of any size/type. Additionally, the Abbotsford Entertainment & Sports Centre staff reserves the right to restrict use of other types of cameras should they feel the quality and/or type of camera fail to protect the artist and/or venue's interests.

Show-Specific Camera Policy

Every event or show that comes to the Abbotsford Entertainment & Sports Centre may also have their own unique camera policy. There are a wide range of restrictions a show may place on the venue and many variations such as no cameras permitted; no flash photography; disposable cameras only, etc... These policies are determined by each show in order to protect the performers and/or prevent unauthorized pictures from being distributed. In most cases, the Abbotsford Entertainment & Sports Centre will not be advised of the show specific camera policy until the day of the show. The Abbotsford Entertainment & Sports Centre will make every effort to ensure the show specific camera policy information is made available to the general public as soon as possible.
